ALEMANY VARIETAL HONEYS AND TURRÓN

Brindisa unpasteurised honeys are made by a family of beekeepers, honey collectors, and turrón (almond nougat) makers, based in the hills of Lleida in Catalunya. Each honey has a sharply distinctive flavour and its own specific nutritional properties. The artisan turrones are made from top grade Marcona almonds grown on Alemany's own farms, combined with honey and sugar. Free from artificial colourings and preservatives.

LES FLORS DEL MONTSENY FRUIT WHEELS

These fruit wheels are made by hand in the Montseny national park in Catalunya. Only whole dried fruit and nuts are used, unlike the more common pulped fruit and nut pieces. The individual attention to the quality of each step of the process results in a fruit wheel with exceptional texture and flavours. Free from artificial colourings and preservatives.

MEMBRILLO EL PÈSOL

Quince jelly, made with fruit grown in Lleida, Catalunya, combined with lemon juice, a hint of cinnamon and natural apple pectin. The sharp sweetness in this membrillo makes it the ideal companion to many cheeses, particularly harder, sharper ones, like Manchego. Víctor Trias has been supplying Brindisa with this classic delicacy from his converted farmhouse in the Lleida valley for 20 years, winning a strong following in the process. Free from artificial colourings and preservatives. Bronze in the Great Taste Awards 2006.

		UNIT/CASE SIZE
FRUIT: PASTES, JAMS, WHEELS AND MORE		
FR01804	Quince paste membrillo, 3kg carton	6 x 3kg
FR01802	Quince paste membrillo, 975g box	6 x 975g
